Special Educational Needs and Disability Provision Policy

Statement of Intent

The ArtsEd is committed to offering an inclusive curriculum to ensure the best possible progress for all our pupils, whatever their needs or abilities.

Pupils have special educational needs if they have a learning difficulty or disability (LDD) which calls for special educational provision to be made for them. A proportion of pupils will have special educational needs (SEND) at some time in their school career. Some pupils require more support than others – some throughout their whole time at school, and others for short periods to help them overcome more temporary issues. If all pupils are to achieve their full potential, we must recognise this and plan accordingly.

Special educational needs and disabilities (SEND) is a broad term that covers a diversity of need. As a school, we do not discriminate on the basis of educational need (see the Admissions Policy); however, before accepting a pupil with an Educational Health and Care Plan, we would need to ensure that we were confident in our ability to be able to meet that level of need. That could be ascertained via meetings with the pupil and their parents, contact with their previous school, and a detailed examination of the report from the educational psychologist. The school's Admissions Policy notes the process that should be followed if a pupil with a physical disability wants to join the school. Please note the section on 'Disability Access' below.

We have a number of pupils with SENDs, and the majority of pupils have diagnosed difficulties due to dyslexia. The majority of this policy addresses how we support the pupils we currently have on roll.

The school complies with the provisions of the *SEND Code (2015)*, provisions from the *Children and Families Act 2014*, the *Disability Discriminations Act 2005* and the *Education Act 1996*. A child is considered to have long-term needs if their needs are deemed severe enough to affect them for a year or more. Pupils have a learning difficulty if they have significantly greater difficulty accessing or processing aspects of the curriculum than the majority of pupils.

Aims and objectives

The specific objectives of our SEND Policy are as follows:

- To ensure a consistent, whole-school approach to pupils with SEND;
- To identify pupils with learning difficulties or disabilities and/or special educational needs as early as possible, and ensure that the necessary support is provided through early intervention, tracking and review; this will be reviewed once a term through the 'Assess, Plan, Do, Review' cycle
- To ensure that the SEND Department work with teachers and parents to implement the 'Graduated Approach' through Waves 1, 2 and 3 intervention
- To provide pupils with the appropriate level of support from initial identification of need through to EHCPs (previously known as statements);
- To support staff in creating a learning environment that meets the special educational needs of each pupil;

- To ensure that all pupils have equal access to a broad, balanced and differentiated curriculum;
- To encourage pupils to be fully involved in their learning and in developing the skills to monitor and review their own progress;
- To make clear the expectations of all partners when planning for and supporting the provision for special educational needs;
- To ensure parents are kept fully informed and are involved in supporting the school in meeting the needs of their child; and
- To ensure all teaching and support staff receive appropriate information and guidance to meet the needs of pupils with identified SEND.

Roles and responsibilities

At ArtsEd, we aim to promote a positive environment that enables all pupils (including those identified as having SEND) to develop as individuals and to ensure that, as learners, they make the best possible progress over time. We take each child's needs into account with regards to sanctions, admissions, school trips and exams (see respective policies).

SEND provision at the school is overseen by Claire Parker-Wood (Deputy Head Teacher and Designated Safeguarding Lead) and expert support is provided by Georgina Kent, the Special Educational Needs and Disability Coordinator (SENDCO) for the Day School and Warren Turner, Sixth Form SENDCO. The SENDCOs deliver the day-to-day SEND programme of support at the school.

The SENDCOs:

- Oversee the day-to-day implementation of the school's SEND Policy;
- Ensure that background information from the feeder schools of pupils identified as having SEND is collected, recorded, updated and communicated to the relevant members of staff
- Analyse the data provided by educational psychologists to implement recommendations and to ensure that, where a need is identified, extra time is provided for public examinations
- Analyse internal exams and GCSE data to assess and evaluate impact of learning support
- Liaise with parents/carers
- Speak with class teachers regularly about the progress of SEND students
- Ask teachers to flag up students with potential SEND to ensure early identification of need in all year groups
- Use information from subject staff to act as a trigger for pupil observation in class. (These pupils will have been identified as displaying behaviours associated with SEND that may not have been identified by their previous schools);
- Analyse data from CATs and LUCID Exact scores in order to investigate and possibly identify pupils who may have SEND
- Create Individual Education Plans (IEPs) for each child identified as needing support, and communicates them to appropriate staff members;
- Annually review the IEPs and update them accordingly. These documents are located where all staff have easy access to them;

- Coordinate the monitoring and review of interventions/actions that have been introduced to support the pupil;
- Liaise with relevant external agencies;
- Annually review the EHC Plans of identified pupils (none at present time – September 2019);
- Advise and support other practitioners in the setting;
- Contribute to staff INSET (in-service education and training) on matters relating to SEND;
- Keep up to date with SEND regulation, government initiatives and resources that may benefit our pupils
- Ensure that appropriate records are kept, and that these records are reviewed and updated annually;
- Plan, deliver and review educational support for identified pupils.

Learning support in action

The educational support provided by the SENDCO includes:

- a) Alongside support in the subject classroom;
- b) Small group work on skills development; and
- c) One-to-one bespoke support in a withdrawal setting

Staff in general

Each teacher has a responsibility to differentiate their teaching for pupils with SEND in his/her subject classroom, and to be aware that these needs may be present in different learning situations. All staff are responsible for helping to meet an individual pupil's special SEND needs and for following the school's procedures for identifying, assessing and making provision to meet those needs. Regular training is provided for staff on the best ways to support SEND pupils. The SENDCO is also available as an expert to provide staff with specific advice on a particular pupil.

Inclusive practice

At ArtsEd, we provide effective learning opportunities for all pupils by:

A Setting suitable learning challenges so that pupils experience:

- Success in their own learning;
- A flexibility of approach; and
- Suitably challenging work.

B Responding to pupils' diverse learning needs by:

- Setting and communicating high expectations and opportunities for achievement for all;
- Planning and delivering lessons that reflect a range of learning and teaching styles, and a recognition of individual pupils' needs;

- Setting appropriate learning objectives and assessment targets;
- Creating effective learning environments;
- Promoting and securing pupil motivation and concentration;
- Providing equality of opportunity through approaches to classroom management and delivery of subject content; and
- Using appropriate tools, resources and language for assessment and tracking.

C Overcoming potential barriers to learning and assessment for individuals and groups of pupils by:

- Making provision for pupils to participate effectively in the curriculum; and
- Planning for SEND and providing access to learning for all pupils.

Monitoring the effectiveness of this policy

At ArtsEd, we expect all pupils with SEND to make good progress. The nature of the curriculum, with its particular emphasis on the arts, enables pupils with certain educational needs (dyslexia, for example) to have the experience of achieving at the highest level even if they struggle in subjects that require more reading and written work.

The progress of all pupils with IEPs is monitored and recorded. Each year the SENDCO reviews each child's progress against their predicted CAT grades as a way of evaluating the effectiveness of our SEN provision. A record of this data analysis is kept by the SENDCO.

As a whole school approach, all staff and the SEND department will meet once a term to review the '*Graduated Approach*' of intervention for those pupils on our SEND register.

If we feel that a child is not making progress commensurate with their ability, and if we feel that he/she may need extra time for exams or a scribe, we will advise their parents/carers to consult with an educational psychologist and to enlist their support in completing an evaluation if a specific barrier to learning exists.

We are fully committed to the principle of inclusion and to perpetuating the good practice that makes it possible. Our policy will enable pupils with SEND to be an integral part of our school community.

Disability access to the Day School and Sixth Form

The ArtsEd is located in a small city centre site in a listed building. Most of the classrooms and studios are based on the first floor and lift access is available. Within the school accommodation, the majority of the studios and classrooms are on the first floor, with two additional spaces on the ground floor. It is necessary for pupils to be able to move from classroom to studio, and from floor to floor. During most days it is also necessary for a pupil to change into vocational clothing; the changing rooms are located on the first floor.

The Governors' ongoing strategy is to ensure that any future conversion of rooms will ensure that disability access is taken into account.

Due to the vocational nature of the school, with its significant focus on the performing arts (and the emphasis on movement and dance), we have not, to date, received any applications from prospective pupils with significant physical disabilities. If we did receive such an application, in our overall assessment of the application we would see if any reasonable adjustments could be made that would enable the candidate to participate fully in our Curriculum Offer (see Admissions Policy). Currently, if a pupil is injured (for example, on crutches) the majority of their teaching and learning could still be accommodated within our existing physical environment. In case of fire, pupils on crutches or in a wheelchair are instructed to use the refuge points located around the building to be helped to the fire assembly point.

Pupils with visual impairment needs could be assisted due to the ongoing investment in interactive whiteboards. This technology allows images to be enlarged to benefit those with a visual impairment. It would also be possible to download teaching notes to enable the pupil to read using specialist software for visually impaired pupils at home. Larger print course notes and examination papers would also be introduced as and when required.

The provision of hearing loops has been considered, but the dispersed nature of the classrooms means it is not financially viable to install such a system. A hearing loop will be installed in the main theatre this year, but this is unlikely to be of significant use to a hearing-impaired pupil as no teaching takes place there outside of production rehearsals.

In any admissions case, we advise parents to make direct contact with the Admissions Secretary (Rosalie Jones) prior to an audition. The Admissions Secretary would consider the best way for the pupil to be supported in terms of effectively accessing the different elements of the audition process. If a pupil were offered a place at the school, a member of the Senior Leadership Team would meet with the pupil and his/her parents/carers to explore whether or not and how the individual's access needs could be accommodated.

Background

In the 2016-17 academic year the SEND department at ArtsEd expanded to include a Sixth Form SENDCO to develop provision for post 16 students. During that year we expanded our information systems and began working to make as much SEND information as possible available via the school's network, SchoolBase and new shared, collaborative documentation.

September 2017 saw the arrival of Georgina Kent our new, full time, Day School SENDCO. With the arrival of this new full time department came the SEND Hub, the newly repurposed room 132, a work space for SEND mentoring, meetings and assessment.

Supporting students

If you are teaching students with SEN the first thing you should do is go onto Edukey <https://edukeyapp.com/account/login> to confirm the student's needs and to look for support strategies.

Please look at the 'Access All Areas' forms and plans on Edukey. These documents contain information on the student, strategies to help you support the student and suggested tried and tested strategies from other staff.

If the student does not appear on the SEND register then please refer to the SEND staff for further investigation using the contact details listed above.

There is also a SEND Toolkit on 'One Drive' where teachers and members of staff can learn more about specific SEND.

With regards to the 'Graduated Approach' and waves of intervention, this is tracked and shared with all staff in a spreadsheet format on the 'One Drive'.

In-class support

In-class support staffing is provided in a number of English lessons, with a particular focus on year 11, this academic year.

SEN information and key

Students on the SEN register should be highlighted in staff registers using the following colour key for the most common needs.

DYSLEXIA in yellow.

DYSPRAXIA in green.

DYSCALCULIA in red.

ADHD in blue.

Visual Stress in red ink.

Laptop user in blue ink.

Symbols will be used to identify students on our electronic register SchoolBase. These are as follows;

- Key = SEND
- Cross = Medical Alert
- V = Vulnerable
- VS = Vulnerable (Safeguarding)
- VM = Vulnerable (Monitoring)
- Target = GATE

Statements, EHCPs and Other Support Categories

Students who have significant needs may be assessed and granted a status and extra provision. These used to be called Statements. These are now known as Education, Health and Care Plans EHCPs (E).

The other big change in the new Code of Practice is that there will be only one formal stage of support on the SEN register – this support stage will, in effect, replace School Action and School Action Plus. This stage will now be known as K.

Access Arrangements for Examinations

Please see our separate Examination Access Arrangement Policy for information relating to how we assess access arrangements for examinations within the SEND department.

ICT

ICT use around the school is developing year on year with the introduction of new Smart Boards. It is part of the school's development plan to continue adding these beneficial resources to support the learning of SEND students. ICT use is also encouraged in the classroom and supported as an examination access arrangement.

Students who use a laptop as their usual way of working are able, following agreement, to do so in all our mock and public exams.

ICT is also employed in the SEND department for the purposes of testing students for educational needs using specialist software and for record keeping. In both cases data and information are stored on secure servers.

Continuing Professional Development (CPD)

The SEND department regularly attend CPD courses to develop their skills and to keep abreast of educational and SEND developments and practices. This knowledge is then shared within the department and often with the entire staff body so all may benefit from the experience.

Departmental Meetings

The SEND department meet on a weekly basis to discuss any issues arising at school and to plan strategies for future development. The SEND line manager also attends these meetings on a fortnightly basis to address wider school issues and developments.

Contact with Parents

Home school contact will take place in a number of forms in the SEND department. Student planners, emails and phone calls will be most commonly used on a daily basis with occasional meetings to take place, by prior arrangement, at Parent's Evenings, Academic Review Days or another mutually agreeable time. As of April 2019, parents can now view their child's plan on Edukey and are able to comment on these.

Staff Absence

In the event of staff absence, 1-2-1 and small group work will be cancelled and students will attend their usual curriculum based lesson. If it is deemed possible or appropriate these sessions may be covered within the SEND department.

School Health and Safety Policies and the Safeguarding Policy

As per the whole school CPD policy, staff are equipped with current knowledge of KCSIE and Prevent training standards. In addition SEND staff are aware of the increased likelihood of disclosures relating to safeguarding issues in the 1-2-1 and small group setting and respond accordingly.

Data Protection and Retention Policy

All hard copy SEND documents are kept in the SEND Hub (Room 132) which is locked whenever unattended.

SEND information records will be retained by the school until the student's 25th birthday. These records will include any documentation created by the school for intervention or assessment purposes e.g IEPs, in the form of Access All Areas documents and Lucid test results. Confidential documentation provided by external

agencies may be destroyed to maintain security. All archived SEND student leaver information is placed in a lockable cupboard located near the school admin office.

Complaints

Where possible any issues or complaints should be directed to the member of staff concerned. If further action is required or this does not seem appropriate the issue should be taken to the department line manager as specified within the SEND department contact information.

Educational Health Care Plans

There are currently two student's with EHCPs in the ArtsEd Day School and Sixth Form.

COVID related policies

Social distancing in the SEND Dept.

In response to the current situation the SEND Hub will be working on a 1:1 basis only and not working with small groups due to the restrictions on space.

During 1:1 sessions the following measures will be taken;

- surfaces and keyboards sanitised before and after sessions
 - adequate distance maintained between staff and student
 - room will to be well ventilated
 - work primarily in a digital format using Google Drive and Google Classroom.
- Minimal sharing of physical resources e.g. books, worksheets etc
- staff to use face masks/visors

We will continue to support in the event of remote learning using Google Drive and Google Classroom.

Day School and Sixth Form Examination Access Arrangements Policy

Policy written:	May 2019
Policy written by:	Warren Turner
Policy last reviewed:	March 2020 by Warren Turner
Next review date:	October 2020

What are Exam Access Arrangements?

An Exam Access Arrangement (EAA) is a provision or type of support given to a student (subject to exam board approval) in an exam, where a particular need has been identified and is provided so that the student has appropriate access to the exam.

At ArtsEd Day School and Sixth Form we will use every opportunity to identify students' needs from their first contact with the school.

Professional reports may be requested to demonstrate any Additional Educational Needs (AEN) and to support a recommendation for a reasonable adjustment to be made to meet the pupil's needs and the type of access arrangements that are appropriate. Exam access arrangement extends and reflects the support that is given to a pupil who has SEND/AEN in the classroom, internal exams and mock exams.

Access Arrangements are pre-examination adjustments for candidates based on evidence of need. Access Arrangements fall into two distinct categories: some arrangements are delegated to centres; others require prior JCQ awarding body approval. Access Arrangements allow candidates/learners with special educational needs, disabilities or temporary injuries to access the assessment without changing the demands of the assessment. For example, readers, scribes and Braille question papers. In this way Awarding Bodies will comply with the duty of the Equality Act 2010 to make 'reasonable adjustments'.

ArtsEd Day School and Sixth Form Policy for Access Arrangements is written in line with the Joint Council for Qualifications (JCQ) Regulations document: 'Adjustments for candidates with disabilities and learning difficulties – Access Arrangements and Reasonable Adjustments'.

This policy should be read in conjunction with the preceding pages of the **SEND Policy Handbook**, which sets out the procedures for identifying SEND and making and evaluating provision for pupils with SEND.

Reasonable Adjustments

The Equality Act 2010 requires an Awarding Body to make reasonable adjustments where a disabled person would be at a substantial disadvantage in undertaking an assessment. A reasonable adjustment for a particular person may be unique to that individual and may not be included in the list of available Access Arrangements. How reasonable the adjustment is will depend on a number of factors including the needs of the disabled candidate/learner.

Duty to make a reasonable adjustment

The duty for an awarding body to make a reasonable adjustment will apply where assessment arrangements would put a disabled candidate at a substantial disadvantage in comparison with a candidate who is not disabled. In such

circumstances, the awarding body is required to take reasonable steps to avoid that disadvantage.

The Equality Act 2010 definition of disability

Generally, impairments have to meet the statutory requirements set out in section 6 and Schedule 1 to the Equality Act 2010 and associated regulations.

The Equality Act 2010 definition of disability is usually considered cumulatively in terms of:

- identifying a physical or mental impairment;
- looking into adverse effects and assessing which are substantial;
- considering if substantial adverse effects are long term;
- judging the impact of long term adverse effects on normal day to day activities

Definition of special educational needs

A candidate has 'special educational needs' as defined in the SEND Code of Practice 2014: 0 to 25 years.

Children have special educational needs if they have a learning difficulty or disability which calls for special educational provision to be made for them.

The Equality Act 2010 definition of disability includes substantial and long-term sensory impairments such as those affecting sight or hearing, mental health difficulties and long-term health conditions such as asthma, diabetes, epilepsy and cancer. Children and young people with such conditions do not necessarily have SEN, but there is a significant overlap between disabled children and young people and those with SEN.

Access arrangements may include

- Supervised rest breaks
- 25% extra time
- Extra time of up to 50%
- Extra time of over 50%
- Reader/Computer reader
- Read aloud/use of examination pen
- Scribe/Speech recognition technology
- Word processor
- Braille transcript
- Prompter
- Oral Language Modifier
- Live speaker for pre-recorded examinations components
- Communication professional (e.g. Sign Language Interpreter)
- Practical assistant
- Alternative site for the conduct of examinations
- Other arrangements for candidates with disabilities

- Exemptions
- Bilingual translation dictionaries with 10% extra time

In line with JCQ regulations, ArtsEd Day School and Sixth Form will make all decisions with regard to access arrangements based upon whether the candidate has a substantial and long term impairment which has an adverse effect, in conjunction with the access arrangement being the candidate's normal way of working at ArtsEd Day School and Sixth Form – demonstrating the involvement of the teaching staff in determining the need for the access arrangement.

Appropriate evidence of need will be available at ArtsEd Day School and Sixth Form for inspection.

Identifying the need for access arrangements within ArtsEd

Students who may qualify for formal access arrangements during KS4 and 5 are identified upon entry through information provided by parents/carers and entry tests. At this stage needs are identified, rather than formally assessed. Adjustments to Quality First Teaching within lessons are then made according to need to enable a student to access their learning and make progress. All staff are involved in monitoring the adjustments. Formal assessments for Access Arrangements take place at various points throughout the school year. Students who have had EAA in the past are screened for EEA at this stage. Although they may have received EAA at other centres, it does not necessarily mean that they automatically receive it again in later exams because their needs may have changed. For example, a student who had a reader at KS2 may not qualify for a reader at KS4 because their reading has improved to the extent it does not meet the exam board criteria.

Assessment

For those students potentially requiring access arrangements formal assessment and application to JCQ is carried out in Year 10/11 and Year 12/13 as standard. Assessments may also be carried out at other points, where necessary. When granted access arrangements are valid for 26 months.

Any student with scores which indicate a substantial impairment will be considered for access arrangements. The most recent tests are binding and determine any subsequent Access arrangements.

- Specialist assessments for access arrangements will be carried out at ArtsEd Day School and Sixth Form by an appropriately qualified assessor.
- Parents may request an independent assessment. However, ArtsEd Day School and Sixth Form may elect to accept or reject a privately commissioned report. If rejected, the SENDCO or a member of the Senior Leadership team will provide a brief, written rationale to support this decision.
- At ArtsEd Day School & Sixth Form examination officer, Day School and Sixth Form SENDCOs and teaching staff all work together to ensure that

appropriate access arrangements are put in place for all tests and examinations.

- If a student chooses continually not to use the agreed access arrangements either because their needs change or they do not feel it aids their learning or achievement, then access arrangements can be removed.
- If the SENDCO and/or specialist assessor considers that access arrangements cease to be the student's 'normal way of working', they reserve the right to withdraw the permission, providing written confirmation to parents/careers.

Procedures for processing an application

Parents must declare at the time of enrolment and when completing the school application form if their child has any medical or psychological condition, SEND needs, previous EAA at another educational institution or any other issues that may require an EAA. Failure to disclose this may result in your child not receiving the correct support and EAA. Once diagnostic tests have been conducted and there is a recommendation for EAA, there is an Examinations Access Arrangements Officer who is qualified to carry out EAA related assessments and tests who applies to the exam board and if the application is successful informs the Exams Officer. Since the application requires evidence of need, the school will hold evidence in its files that can be inspected at short notice. This can include:

- Educational psychologist reports.
- Speech Therapist reports.
- Occupation Therapist reports.
- Letters from outside agencies such as hospitals, doctors, and CAHMS (Children and Adolescent Mental Health Service).
- Reports from Hearing Impairment (HI) and Visual Impairment (VI) advisory teachers.
- Copies of Statements of Special Educational Needs, or Education, Health Care Plans (EHCP).
- Permission from the exam board for the arrangements.
- A signed copy of Form 8 report by the ArtsEd designated assessor/tester.
- A record of all occasions when a pupil has been supported by EAA.

Joint Council for Qualifications (JCQ) deadlines are fully adhered to.

Evidence needed to apply for EAA

There are a number of pieces of evidence that can be used to apply for EAA to JCQ:

- Form 8 reports from a specialist teacher carrying out EEA assessments/tests.
- Previous EAA from another school.

- Subject teachers- examples of work as appropriate and support given in class or evidence from tests or mock exams.
- Results from baseline tests such as reading age, writing tests.
- Medical reports outlining significant medical needs and disability.
- An educational psychology report which explicitly diagnoses severe dyslexia.
- A Speech therapy report which diagnoses severe language impairment.

How do staff and parents know whether a student has access arrangements?

When a need for Access Arrangements has been identified, the relevant parties are informed:

- Parents in writing – the letter outline the type of arrangements that have been awarded.
- Students are informed verbally.
- Access Arrangement list is made available to the exam officer.
- A list of those who receive Access Arrangements is made available to all staff. This information will be placed on the relevant shared drives.

Private Educational Psychologist Reports

A parent may have their children assessed by a private educational psychologist and submit the report to the ArtsEd Day School and Sixth Form's SENDCOs as evidence that their child should be awarded extra time or EAA. Private educational psychologist reports cost a significant amount of money. Therefore this means that parents who are unable to obtain a private report through their financial circumstances are put at a disadvantage. As an exam centre ArtsEd Day School and Sixth Form must be consistent in its decisions and ensure that **no student is either given an unfair advantage or disadvantaged by any arrangements put in place.** Therefore, when parents submit such reports to ArtsEd Day School and Sixth Form, we will look for evidence of a history of need. Such privately commissioned reports can be in conflict with what ArtsEd Day School and Sixth Form's assessor recommends. If ArtsEd's diagnostic tests contradict privately commissioned reports then the in-house tests and assessments will take precedence and will inform EAA decisions and no further negotiation regarding this matter will take place with the parent/carer.

Special Consideration

Special Consideration is a post examination adjustment to a candidate's mark or grade to reflect temporary injury, illness or other indisposition at the time of the examination or assessment. This will be processed by the examinations office.

Temporary Injury

Access Arrangement Online (AAO) is used for a candidate with a temporary injury or impairment, such as a broken arm during the examination period. These

arrangements are processed as the need arises. Medical evidence is retained within the department, together with a file note detailing the circumstances, a signed data protection form and a copy of the AAO Approval.

Use of a Word Processor in Examinations

The use of a word processor is permitted in examinations where it is the candidates 'normal way of working' within the centre. The following extracts from the JCQ Reasonable Adjustments book clarify some of the most common questions encountered with word processor usage at ArtsEd. Further details can be obtained from the SEND Department or by referring to the source booklets linked below.

For the regulations on the use of word processors as an access arrangement in written examination, please see page 51 of the JCQ publication 'Access Arrangements and Reasonable Adjustments'

<https://www.jcq.org.uk/exams-office/access-arrangements-and-special-consideration/regulations-and-guidance/access-arrangements-and-reasonable-adjustments-2019-20>

For the regulations on the use of word processors in written examinations, please see page 29 of the JCQ publication 'Instructions for Conducting Examinations' (commonly known as the JCQ 'ICE' booklet)

<http://www.jcq.org.uk/exams-office/ice---instructions-for-conducting-examinations>

ArtsEd will provide a word processor with the spelling and grammar check facility/predictive text disabled (switched off) to a candidate where it is their normal way of working within the centre. This can be the candidate's normal way of working because, for example and not limited to, the quality of language significantly improves as a result of using a word processor due to problems with planning and organisation when writing by hand, a learning difficulty or medical condition which has a substantial and long-term adverse effect on their ability to write legibly, or, they have planning and organisational problems when writing by hand.

As stated on P29 of the JCQ 'Access Arrangements and Reasonable Adjustments' booklet, 'a word processor cannot simply be granted to a candidate because he/she now wants to type rather than write in examinations or can work faster on a keyboard, or because he/she uses a laptop at home. The use of a word processor must reflect the candidate's normal way of working within the centre.'

Candidates who wish to use a word processor must have this arrangement approved by the Examinations Access Arrangements Officer (Warren Turner). A list of permitted candidates will be published by Examinations Access Arrangements Officer in consultation with candidates and teaching staff. The final list will be shared

with the Examinations Officer (Parisara Boon) for their reference and distribution to invigilation staff, prior to each internal, or, public examination series.

Reviewing the Policy

In light of JCQ regulation updates, this policy is reviewed annually.

Appendix 2: Strategies and advice for working with SEN students

Please be aware that there are four broad categories of SEND under the [Special Educational Needs Code of Practice \(2014\)](#) (see Venn diagram)

Students with a low reading age (R.A.) and MLD moderate learning difficulties

- Please be aware of the difficulty of the text you are using. They may be unable to read this alone.
- Be aware that they cannot just dip into the text and get answers – it would be helpful to ask or set out the questions before you read the text so they know what they are looking out for as you read.

Students with SPLD - Specific Learning Difficulties e.g. dyslexia

- Make sure that you know who these students are. It is very discouraging for them if you make a remark and compare their written work negatively to their oral contributions. Differentiate your marking for these students.
- Encourage them to word process and spell check as much work as possible
- Please do not give them long lists of words to learn in spellings. They simply will not be able to do this. But do give them new vocab before they start a topic.
- If a child has Dyscalculia, refer to SEND toolkit and use hands on resources as much as possible

Students with SLCN – Speech, Language and Communication Needs

- These students may have age appropriate reading and spelling skills but be aware they may not be processing information
- When you want to check if they have understood instructions do not ask if they have understood, but ask a question e.g. What are you going to next?
- In asking questions in class you may want to say to the pupil – I am going to ask you this question in a few minutes – so you allow them time to formulate their answer.

Students with ASD – On the Autistic Spectrum Disorder

- Direct rather than invite tasks to be done. These students work better with instructions than choice.
- Prepare them for change when possible. If you are going to be in a different classroom or change the way you run the lesson – let them know in advance.
- Encourage eye contact but do not insist on this as this can cause distress
- Avoid using idioms when teaching, as pupils will often take literal meanings
- Encourage two way open answer conversations between pupil and their peers

Students with ADHD - Attention Deficit Hyperactivity Disorder

- If possible, place student at the front of the class and away from distractions like windows and doors (to cut down on stimuli)
- If possible the student should have a tiny notebook to jot down a word to remember what he wants to say so he does not have to interrupt to make his/her point
- Use timings e.g. in 10 minutes we willAnd let them know the timings within lesson

Students with SEMH - Social, Emotional and/or Mental Needs

- Staff to make themselves aware of the designated mental health first aiders in the school
- Some of these students will have information and strategies outlines on Edukey e.g. time out cards for sixth form

Appendix 3: SEN categories

MLD	Moderate Learning Difficulties - general difficulties
SPLD	Specific Learning Difficulties e.g. dyslexia
SLCN	Speech, Language and Communication Needs
SEMH	Social, emotional and mental health problems. – these should be identified by a professional
AD(H)D	Not a formal label- subset of above Attention Deficit (Hyperactivity) Disorder
ASD	Autistic Spectrum Disorder includes Asperger's Syndrome
P/I	Physical Impairment subsets of -
H/I	Hearing Impaired
V/I	Visually Impaired

Appendix 4: The Graduated Approach for SEN Support
